# THOSE WITH THE MOST AT STAKE SELECT KRYTON.

A building. A dam. A tunnel. More than concrete and steel, brick and glass. They're investments made, dreams realized. Representing time and money, sweat and tears. Reputations are made, companies are defined. There's a great deal at stake—for everyone involved. Especially if problems arise with the wrong concrete waterproofing system. That's why world-class builders protect with Kryton.

## **KRYTON: THE MOST EFFECTIVE CONCRETE WATERPROOFING SYSTEM IN THE WORLD.**

Only Kryton protects concrete permanently. Our revolutionary self-sealing technology and comprehensive support system transforms concrete into an ever-vigilant, waterproof barrier. Short term, you'll shave weeks off construction schedules, cut waterproofing costs by up to 40% and maximize your building footprint. Long term you'll avoid leaks, discoloration and costly callbacks.
