QUESTIONS: 1-800-267-8280 or www.kryton.com

BACKGROUND

A pedestrian walking tunnel in a very busy, industrial area of Buenos Aires required a waterproofing system for the concrete that would last many years.

There was particular concern over the aggressive contaminants in the ground water common to the area.

SOLUTION

The KIM™ admixture was supplied by Kryton's Argentinian distributor, Nodulo Sociedad Anonima, to provide the long-term durability and performance that the owner required.

To date, the system is performing as specified.
